REMARKS

The current outstanding Office Action has a Notification date of November

23, 2007, thus this response is within the 2-month period for response.

The Examiner started the telephonic conversation with the fact that

claim 1 has no hardware recited. Attorney for applicant respectfully asked

the Examiner to put his rejections in writing.

Claim 1 is a method claim and it has been established that there is no

technological arts test for patentability. BOARD OF PATENT APPEALS

AND INTERFERENCES determined that there is no judicially recognized separate "technological arts" test to determine patent eliqible subject matter

under 35 USC Section 101. (Ex parte Carl Lundgren).

The claims have been amended to add spell-out for acronyms and to

correct antecedent basis problems discovered by applicant.

In light of the above, it is respectfully submitted that the present application is in condition for allowance, and notice to that effect or a timely

Advisory Action is respectfully requested.

While it is believed that the instant response places the application in

condition for allowance, should the Examiner have any further comments or suggestions, it is respectfully requested that the Examiner contact the

undersigned in order to expeditiously resolve any outstanding issues.

Respectfully submitted:

/Steven A. Shaw/
